PROGRAM DETAILS: **A Transition to High School Program (year 6 only 2018)**

It has a focus on organisational skills, travel planning, problem solving, study skills, making friends, and dealing with new technologies safely. Teaching and learning activities will focus on skills that are imperative to success at high school – knowing how to study, use the computer, plan for assignments, and ask for help.

The transition to high school is an exciting time for teenagers and their families. It is the beginning of a whole new chapter in your lives; meeting new people, experiencing a range of different subjects and sports, all in preparation for adult life. It can also be an anxious and stressful time in both preparing for the move to high school and those first few weeks. Learning Links can help.

Moving On & Up, focuses on organisational skills, travel planning, problem solving, study skills, making friends, and dealing with new technologies safely. Your child will learn how to read and use diaries, maps and timetables and have opportunities to discuss their hopes and fears about the change.

Teaching and learning activities will focus on skills that are imperative to success at high school – knowing how to study, use the computer, plan for assignments, and ask for help.

PROGRAM COST:

Moving on & up - \$225 (8 hours)
